670.5 v.18

IN TWO SECTIONS—SECTION TWO

Index to Volume Eighteen of The Paper Industry

April, 1936—March, 1937

Page numbers in this index are preceded by numbers of the issues. April, 1936, is No. 1 and March, 1937, is No. 12

A

Absenteeism in the paper and pulp industry....12, 1053
Absolutely fast to light....12, 1077
Absorption, period of sulphite liquor....11, 969
Acid bleaching 3, 299
Acidification 3, 229
Adams, G. J., Some danger spots to papermakers 3, 185
  Absenteeism in the paper and pulp industry 12, 1053
  Safety—its part in paper mill operations..12, 1072
Adsorption of phenols and hydroxyearboxylic acids by cellulose.... 8, 681
Air conditioning of paper and printing plants.. 4, 308
Albert, C. G., Recent developments in filler clays 12, 1071
Alkaline bleaching 3, 229
Alkalinity, test for.... 3, 225
Alum concentrations, determination of.... 6, 460
American flax for yarns and papers.... 4, 289
Ammonia cellulose 6, 487
Analysis of the sulphite acid making process, an 12, 1074
Anderson, O. E., Some causes for non-uniformity in sulphite pulp manufacture....12, 1074
Aniline machines and their uses....12, 1076
Aniline printing 12, 1076
Antichlors—pro and con.... 3, 227
Anspach, Sven, A flotation method for treating white water 12, 1082
Anti-friction bearing comments....10, 835
Application of higher pressure to small plants.. 1, 47
Arnot, J. Melrose, Hints on manufacture of vegetable parchment 9, 747
Arrangement for immediate reworking of wet-end trim 6, 487
Ascertaining correct brush position....12, 1103
Association Meetings:
  American Chemical Society, Div. of Cellulose 2, 118
  Annual meeting of the Canadian Technical Section 11, 938
  A.P.P.A. holds sixtieth annual meeting...12, 1076
  Atlantic City Welcomes 25th annual safety congress 7, 550
  Divisional bodies hold sessions....12, 1085
  Fox River Valley and Lake Shore safety conference 3, 211
  International technical meeting a huge success 6, 467
  Progress is theme of salesmen's association.12, 1085
  Superintendents convention outstanding success 4, 297
  T.A.P.P.I. holds twenty-second annual meeting 12, 1076
  T.A.P.P.I. meeting, tentative program of annual 11, 957
Automatic freeness and drainage control....12, 1076
Axline, R. A., Maintenance with the metallizing process 12, 1073

B

Bachman, C. O., Grinding pulp for high speed paper machines 2, 101
Bailey, A. J., Structure of the middle lamella.. 5, 379
Bank of France paper mills.... 9, 745
Barber, W. R., Crown Willamette Paper School.11, 944
Barnwell, W. C. (See E. L. Cowan)
Bates, R. M., Aniline printing....12, 1076
Bearing comments, anti-friction....10, 835
Bearings and their lubrication.... 9, 769
Beater 7, 573
  stock, consistency tester for.... 9, 773
  with forced circulation.... 4, 325
Beaters, some notes on the running of....11, 930
Beating, degree of.... 8, 681
Beating pulp with high-intensity sound.... 9, 749
Beaton, Arch H., How a southern mill built a safety program 9, 737
Beechwood lignin 11, 971
Behrman, A. S., Water purification to meet paper mill requirements....12, 1083
Bennett, W. T., High speed paper machines.... 6, 467
Berges, E. H., Calender roll crowning.... 2, 112
Beryllium perchlorate as cellulose solvent.... 9, 773
Billington, P. S. (See G. H. Chidester)
Birchard, W. H. (See C. F. B. Stevens)
Bleach liquor slide rule, a....10, 833
Bleaching, effect of sulphate fibers on.... 8, 637
  notes on 3, 227
  pulp for rayon.... 2, 139
  with oxidants 3, 231
Blowers, unit furnace....11, 967
Blue stain in groundwood.... 9, 769
Board machine production, increased by electrical stackers 1, 35
Boiler room instruments essential to economy..10, 855
Boilers, test your own.... 1, 26
Bossart, E. B., Steam flow-air flow meters.... 6, 465
Bowlby, W. D., Lacquered papers....12, 1075
Brauns, Fritz E., Contribution to the knowledge of the nature of lignin derivatives.... 6, 472
  and H. F. Lewis, Skin substances in pulp fibers 12, 1070
Bray, Paul D., Robert A. Thompson and Jiun Shyr, The fractionation of mechanical pulps and its relation to refining....12, 1073
Brief survey of management methods in paper mills, a 12, 1071
Brown, W. E., Shell bodies for rubber roll covering 1, 27
Bryan, J. E., The menace of government ownership of railroads.... 7, 541
Buckingham, Stephen A., Beating pulp with high-intensity sound 9, 749
Buckling of storage battery plates.... 9, 767

C

Calculation of the spectral reflectivity of dyed paper, the 12, 1077
Calender roll crowning.... 2, 112
Callighan, W., Developments in the manufacture of coated paper.... 6, 472
Campbell, W. Boyd, and William C. Lodge, Johnston screen classifier....11, 938
  Laboratory studies of drainage characteristics 11, 942
Carbon dioxide formed in the sulphite cook....12, 1109
Carbon dioxide recorders in paper mills.... 4, 284
Care of belt conveyors.... 6, 483
Care of films and filmslides in libraries....10, 832
Carpenter, Charles, A study of the ether soluble material in sulphite pulp from southern pine.12, 1074
Cary, Austin, The forest and the paper industry. 1, 30
Casper, Carionne, The library in the paper industry and related fields....10, 829
Catalytic bleaching 3, 229
Cause and cure of grainy edges, curl and cockles in paper, the....12, 1081
Caustic embrittlement 2, 133
Cellulose and pulp problems, chemical constitution of 11, 973
Cellulose solvent, beryllium perchlorate as.... 9, 773
Centrifugal pulp screens, increasing field for... 2, 115
Centrifugal pumps, and poor alignment....10, 855
Chalon, O. T. and F. A. Soderberg, Absolutely fast to light....12, 1077
Chambers, R. J., Factors affecting dryer performance 11, 941
Champion, Charles, President's message to Superintendents Association 4, 298
Characteristics of groundwood pulp for high speed newsprint machines.... 6, 468
Chemical characteristics 3, 229
Chemical constitution of cellulose and pulp problems 11, 973
Chidester, G. H., P. S. Billington, Effect of varying the concentration of combined sulphur dioxide in soda base sulphite pulping....12, 1074
Chips from resin to soap formation.... 8, 635
Cigarette paper 8, 633
Cirves, Francis J., Developments in the bleaching of pulp 4, 285
Clapperton, R. H., Review of "Paper, an historical account" 2, 117
Clark, Frederic C., Problem of paper mill modernization 12, 1070
Clark, James d'A., Concerning the interpretation of pulp tests....12, 1077
Cleaning curved boiler tubes.... 1, 47
Coal dust motor.... 8, 681
Coal used, checking up on.... 4, 321
Coated paper, developments in its manufacture. 6, 472
Coating color mixtures, developments in the preparation of.... 4, 306
Coating process.... 4, 325
Cobb, R. M. (Miss), What may we expect of starch? 12, 1075
Collins, G. N., Suggested evaluation procedure for comparing hydrators and refiners....12, 1077
Colloid chemical aspects of clay as a loading material 12, 1071
Color to black and white, reducing.... 8, 663
Colorimetric determination of selenium in sulphur 9, 773
Coloring matters in sulphate pulp.... 1, 53
Composition of spruce, scots pine and beech.... 7, 573
Comprehensive study of loading materials....11, 971
Concerning the interpretation of pulp tests....12, 1077
Consistency tester for beater stock.... 9, 773
Continuous caliper 4, 327
Continuous causticizing system at Crossett paper mills 12, 1083
Continuous cooking of sulphite pulp.... 4, 303
Continuous mixing of chemicals with pulp.... 4, 325
Continuous purification and sorting of pulp.....12, 1109
Control of the refining action of discs, the....12, 1076
Cooper, E. W. G., The cause and cure of grainy edges, curl and cockles in paper....12, 1081
Corrugated board 2, 135
Cosler, A. S., Metal disc refining of groundwood screenings 11, 940
Cowan, E. L., and W. C. Barnwell, Distribution of power in a sulphate mill.... 8, 627
  and B. Cowan, A theory of paper drying..12, 1078
Craigie, George W., Management....11, 923
Cramer, Harold L., Suction drum roll improves paper board 11, 948
Crossley, T. L., A quantative test for soap wrap paper 12, 1077
Crown Willamette Paper School....11, 944
Crowning calender rolls.... 2, 112
Curran, C. E., Some relations between growth conditions, wood structure, and pulping quality 6, 472
Current Thought:
  A flying visit to New York City.... 3, 174
  Beyond the headlines....11, 903
  "It can't happen here" . . . but it is happening 12, 1026
  Man of destiny vs. common American..... 5, 358
  Merely a matter of direction.... 6, 440
  More retrospection than introspection....10, 804
  Our last chance to kill the octopus..... 7, 526
  Random thoughts 8, 606
  Sell ideas . . . not just paper.... 2, 90
  This is the age of change.... 4, 270
  What next November means.... 1, 14
  What we really sell.... 9, 722
Currier size tester, the.... 8, 633

D

Davies, C. B., Awarded Weldon medal.... 6, 463
Davis, D. S., Filler retention nomograph.... 2, 115
  (See also Linton E. Simerl)
Degree of beating, fiber measurement and fractionation 8, 681
Deinking old paper.... 9, 769
de la Roza continuous digester, the....11, 946
Delivery of feed water to boiler.... 2, 133
Determination of alum concentrations.... 6, 460

Development and refinement in design of paper machines 12, 1082
Developments in the bleaching of pulp..... 4, 284
Developments in the preparation of coating color mixtures 4, 306
Dewatering device 6, 489
Diehm, R. A., The use of enzymes in the preparation of paper coatings..... 12, 1075
Dietz, F. N., A summary of fundamental formulae for impact and contact inches as presented by different authors..... 12, 1077
Different forms of lignin from spruce and beech. 11, 969
Differentiation between bleached and unbleached wood pulp 12, 1109
Difficulties of waterwheel regulation..... 8, 679
Diffusion of sulphite liquor into wood..... 12, 1107
Digesters, welded sulphite, vs. riveted digesters. 10, 859
Dilecto, a construction material for paper machine parts 12, 1082
Discoloration of soap wrap paper, the..... 12, 1077
Disintegration of wool felts, the..... 4, 281
Distribution of power in a sulphate mill..... 8, 627
Donovan, D. K., Reducing color to black and white 8, 663
Dowd, A Scott, Data on the Paper Industry contest 7, 556
Drainage measurements on a paper machine wire at various points..... 11, 942
Drive, variable speed..... 10, 857
Drying surface treated paper..... 4, 325
Dun and Bradstreet survey..... 2, 116
Earle, Charles Reed, Steam and power for tomorrow 8, 630
Test your own boilers..... 1, 26
Ebner, Dr. Adalbert, Generation and industrial use of gas from wood..... 11, 941
Economics of speed and width on news print machines 11, 941
Economy, boiler room instruments essential to. 10, 855
Economy of high intensity mercury lighting, the 5, 383
Editorials:
A warning..... 5, 353
A world-wide shortage of chemical pulp.... 9, 719
An aftermath of the depression..... 2, 88
An open mind..... 8, 604
"And it could have been prevented"..... 7, 524
Business continues its upward swing..... 7, 523
Business momentum shows significant gain. 1, 11
Christmas peace 9, 720
Deferred deliveries only..... 6, 437
Floods, floods, floods..... 1, 12
Good place to work..... 10, 802
Hazards and dividends..... 9, 720
How blotting paper was discovered..... 4, 288
Just a suggestion..... 6, 438
Let's go to work..... 8, 603
Machinery and the paper industry..... 5, 356
Nothing to do right now..... 6, 438
On the mark! Get Set! Go!..... 12, 1024
On to Grand Rapids..... 3, 172
Paper and the oil industry..... 1, 12
Paper industry faces heavy demand..... 2, 87
Paper production scores a record high..... 10, 801
Pulp supplies key to 1937 paper production. 11, 903
Red letter days..... 4, 288
Retrospection and anticipation..... 10, 802
School is out..... 3, 172
Soliloquy on shortages..... 12, 1023
Some newsprint facts to ponder..... 11, 903
Strength in organized effort..... 10, 802
That matter of vacations..... 5, 356
The heights of true thankfulness..... 8, 604
